

Surprise Display of Luxe EVs in Town

One way to experience the world of high-end electric vehicles is by visiting local car dealerships or showrooms. These establishments often have a dedicated section showcasing the latest models from renowned manufacturers. From sleek sedans to powerful SUVs, you can get up close and personal with the cutting-edge designs and innovative features of these expensive EVs.

Another option to witness the display of expensive EVs was by dropping into Railway Terrace in Wyalkatchem today as the car park outside the CRC came alive about 1:00pm, with a chance to look after some extremely expensive machinery – electric variants from McLaren, Ferrari and more – and a couple of beautiful pale blue EV Hyundais that raised some eyebrows with their performance compared to the luxury marques.

The things you miss when you're not staying in Wyalie. ?
